## Work Experience

### Research Methods Used

- Interviews
- Diary studies
- Shadowing
- Secondary research
- Method acting
- Heuristics evaluation
- Service pilots
- A/B tests
- Usability studies

### Workshops facilitated

- Design Thinking (Train-the-trainer)
- Co-Create
- Brainstorming sessions
- Research alignment workshops

### Artifacts created

- Service blueprints
- User experience and journey maps
- Discussion guides
- Value network maps
- Stakeholder maps
- Personas
- Empathy maps
- Process flow diagrams
- System diagrams
- Storyboards
- UX prototypes
- Wireframes
- Workshop materials
- 2D and stop motion animations
- Physical prototypes
- Web apps
- Interactive data visualizations

### Languages

- English
- Marathi
- Hindi

**Philips India Ltd.**  
**Service Designer II**  
*and*  
**Service Designer I**  
Sep 2021 to present  
Bengaluru, India

### Service Designer II

- Scoped and led service design & research projects across various business verticals as part of an internal-facing consultative business transformation team in the healthcare technology
- Articulated the value of service design & research to C-suite members & program heads.
- Worked end-to-end- identified opportunities, designed interventions, tested, implemented, and evaluated new service experiences for healthcare professionals and patients.
- Conducted extensive qualitative research (on-field & virtual) with participants across the globe
- Designed end-to-end service experiences, customer journeys, UX prototypes, marketing assets, and non-digital touchpoints.
- Facilitated workshops among cross-functional teams to foster alignment, including internal workshops and 'clinics' to expand strategic & service thinking within the Bangalore design team
- Quantified CX impact via NPS, CSAT, modified versions of SUS scores to support iterative implementation of new experiences in key service moments of customer, user, and patient journeys.
- Started a Generative AI and Mixed Reality interest group of six members to find ways to improve overall customer experience, patient outcomes, & workflow efficiencies within Philips.

**Studio 5B**  
**Dr. Reddy's Laboratories**  
Nov 2020 to Jul 2021  
Mumbai, India

### Service Designer

- Worked closely with UX designers, researchers, business stakeholders in cross functional teams during internship.
- Conducted research for new patient-facing services and identified opportunities to improve core internal processes
- Created end to end service blueprints to map as-is and future journeys, synthesized impactful insights from data gathered through primary and secondary research.
- Facilitated design thinking, needs-gathering, and brand strategy workshops.

**Freelance positions**  
Mar 2020 to Jul 2021  
Mumbai, India

### UX Designer and Researcher

- Worked with a wide variety of clients including educational institutions, product companies, consultancies, startups, and non-governmental organizations based in India and United States.
- Scoped and pitched projects, worked with other freelancers.
- Conducted market and user research, facilitated workshops, designed UX and UI prototypes of web-apps and internal dashboards with production specifications.

**MIT World****Peace University**

Jul 2020 to Oct 2020

Pune, India

**Visiting Faculty- UX Prototyping**

- Taught UX Prototyping to third year undergraduates through project-based learning. Expanded class to include discovery and evaluative research techniques based on students' requests.

**Panorama Innovation**

Jul 2019 to Mar 2020
